## Understanding the design options.

Choose your laying pattern then experiment with colour, stripping, motifs and borders to create your perfect flooring.

### Signature Design Features

Page 186

#### Borders

Decorative edging that draws the eye. Simple or elaborate, a border defines a space.

Page 182

#### Motifs

Make an impact – a Signature motif will create a stunning focal point in any room.

Page 184

25 shades...

With a perfect balance of subtlety and drama, Colour Edit delivers an array of appealing choices. Create your unique flooring vision with 25 expertly crafted shades, refined and developed to effortlessly complement one another.

*colour  
and texture*

Introducing four unique designs with Colour Edit...

## Diffusion

Five fresh pastel colourways with a useable powdery texture create a gentle palette that's suitable for a variety of spaces.

1

## Stucco

Stucco is softly textured for a fine, sophisticated finish. With nine colourways ranging from mottled watercolours, to soft concretes and dry plaster it is the perfect tool for experimentation.

2

## Modernist

Developed through studies of Brutalist architecture, Modernist's five colourways are inspired by light patterns on concrete, creating tonal shifts that give way to soft angles and a multitude of layers.

3

## Encaustic

Bring earthy, raw texture to your space with Encaustic's six colourways, influenced by the saturated tones of minerals, marble and semi-precious stones.

# Stripping.

Planks and tiles can be set next to each other or divided by a thin line of stripping. The stripping helps to define your grout style and can be as subtle or bold as you like, so different size options are available to order – it's all about the width and colour of the line.

Basilica Shell  
(chosen as the stripping)

Random Stone  
(standard laying pattern)

Umбра Eclipse  
(chosen as the flooring)
